

TESTICULAR CANCER RESOURCES

RESOURCES AND SUPPORT FOR EVERY STAGE OF YOUR JOURNEY

Key resources, tools, and support for patients, survivors, and loved ones affected by testicular cancer. Whether newly diagnosed, in treatment, or navigating survivorship, this page provides practical resources, educational materials, and opportunities for social connection, including peer support groups and live sessions. Resources are designed for patients, survivors, caregivers, and loved ones to explore at their own pace, offering information and support to help people better understand and manage their experiences with testicular cancer.

Support & Community

Connect with others who understand your journey. From private online groups to virtual meetings and conferences, these resources offer peer support, networking, and opportunities to share experiences with fellow patients, survivors, and caregivers.
